Wage-Hour Coverage Cut Is Rejected

By JOE HALL

WASHINGTON (AP) — Rejecting two major cuts in coverage, the Senate set out today to decide how many new workers should be brought under the minimum wage bill.

The measure, sponsored by Sen. John F. Kennedy of Massachusetts, the Democratic presidential nominee, remained intact after a week of debate and two days of voting. It would raise the minimum wage from \$1 to \$1.25 an hour in three steps, and extend the coverage to almost five million additional workers, mostly in retail stores, hotels and restaurants.

Numerous other amendments remained to be voted on under a debate limitation agreement which could bring final action by tonight.

The Senate rejected Wednesday an amendment by Sen. Spessard L. Holland (D-Fla.) which would have exempted all retail establishments and added only about 280,000 workers to the wage-hour laws coverage. The vote was 50-40.

A similar 54-39 vote defeated a Republican substitute measure offered by Minority Leader Everett M. Dirksen of Illinois. It would have increased the minimum wage to \$1.15 an hour, and extended limited coverage to between 1,800,000 and two million new workers.

Some of today's votes were likely to be closer than the initial roll calls. Backers of the Kennedy measure were not certain they could defeat one amendment advanced by Sen. A. S. Mike Monroney (D-Okla.) which would make a relatively mild cut in the bill's coverage provisions.

Negotiations on the Democratic side still were under way when the Senate quit Wednesday night. It was possible a compromise on a new coverage would be worked out before the vote.

The Monroney proposal would reduce the coverage to about 3,000,000 with all of the cut in the retail and service fields.

Negro Girl Assigned to Dollarway

PINE BLUFF, Ark. (AP) — The school board of the nearby Dollarway district announced today it had assigned a Negro girl to the all-white Dollarway Elementary School for the fall term.

The girl is Delores Jean York, 6, daughter of John D. York of Pine Bluff.

She was one of three Negro children who applied May 5 for admission to the first grade at the white school.

The school board said it had assigned the other two applicants — Andrew Howard and Linda Diane Houston, both 6 — to the all-Negro Townsend Park School in the Dollarway district.

The board said it acted in compliance with a federal court's instructions in admitting the York girl to the white school.

Litigation in the complicated Dollarway desegregation case has boiled in federal courts for more than a year. The U. S. Eighth Circuit Court of Appeals at St. Louis is expected to rule soon on the latest phase of the case — an appeal by Negroes from the Dollarway Board's denial of "lateral transfers" between schools.

An incident of alleged violence was reported at the time the three Negro children applied for admission to the white school.

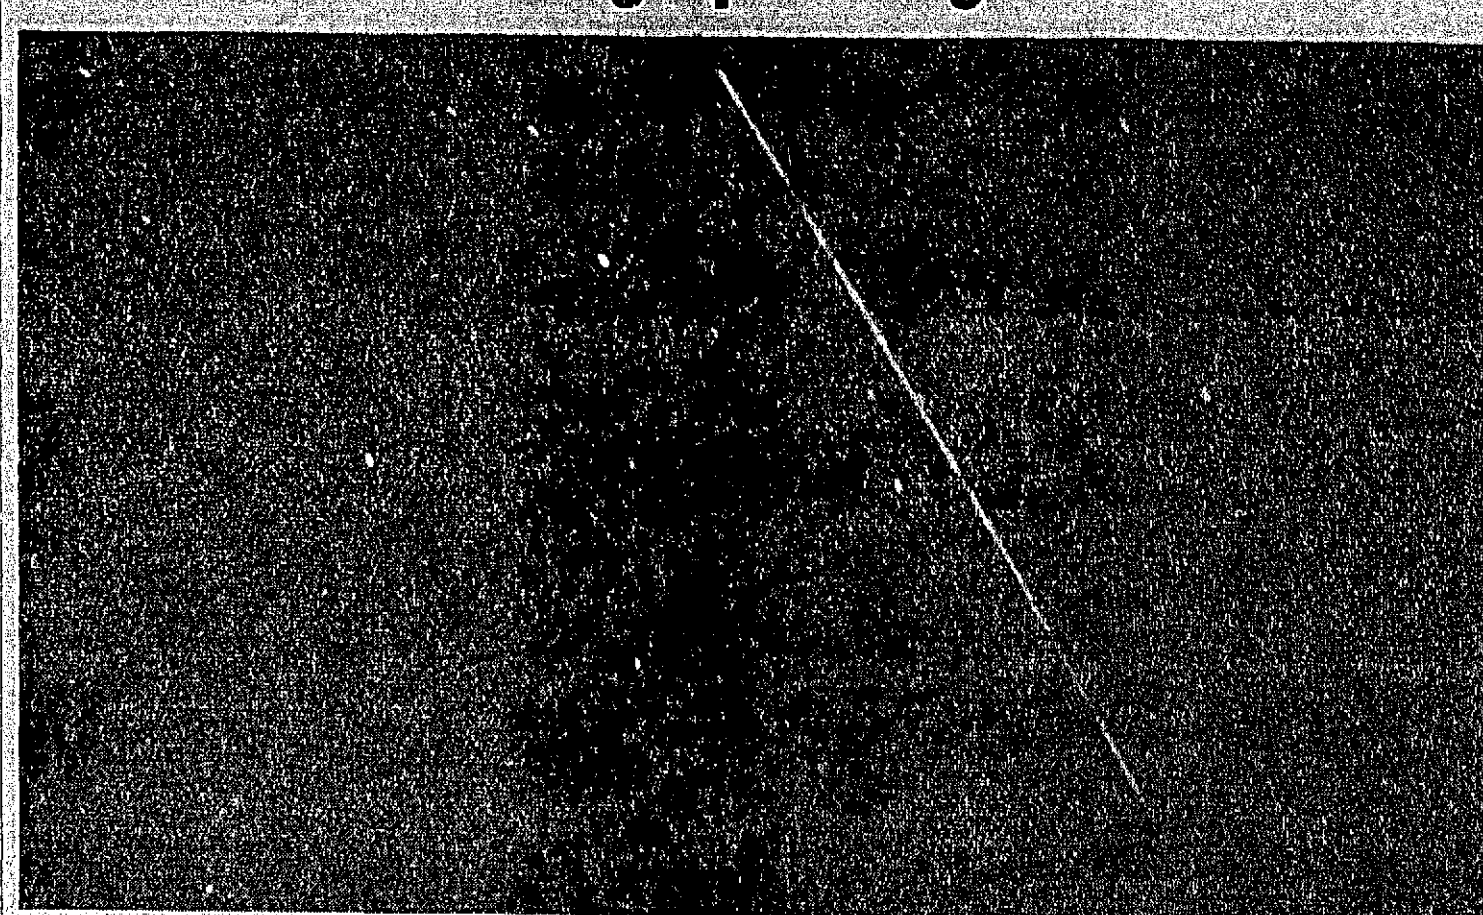

Ivey Anderson, 75, Negro, said two white men beat him after he drove the Howard and Houston children to the white school to register.

Naval Plot Uncovered by Castro

By RICHARD VALERIANI

HAVANA (AP) — A sweeping reorganization of the Cuban navy appeared certain today in the wake of reports that the Castro brothers had smashed a naval plot against their regime.

Government silence prevented official confirmation of persistent reports that Castro agents had infiltrated a group of dissident naval officers at the Casa Blanca base across the way from Havana and uncovered a plot to revolt or defect with two of Cuba's three modern frigates.

Armed forces headquarters denied anything was amiss, but informants insisted about 300 men had been arrested on charges of plotting.

Reports that Navy chief Juan Castineira was under arrest were denied officially. His whereabouts was a mystery.

Havana radio stations said earlier today that Prime Minister Fidel Castro was visiting army bases in Las Villas Province, in central Cuba. The prime minister went to Cienfuegos Monday night, but the duty officer at the naval base there denied there had been any trouble.

Sources in Havana said Castro and his brother Raul, minister of armed forces, had personally led a roundup of anti-government forces in the navy.

Trusted army personnel were said to have taken over security measures at the island's naval installations.

It is believed Raul Castro has long desired to purge the navy, traditional center of anti-government actions in Cuba.

The navy's powers have been diminishing steadily under Raul Castro. It has lost its maritime police and even control of light-houses.

FRANK KING OF SOUTHWEST WOOD PRODUCTS MADE this photograph of the United States satellite Echo I about 9:20 Wednesday night from the yard of his home at 922 E. Division St. HE USED A STANDARD POLAROID CAMERA LOADED with ASA 3,000 film, wide open at F8.8 with a tripod exposure of 2 minutes. The Star enlarged his print 2.2 times on the Fairchild Illustrators electronic engraving machine.

MR. KING REPORTS: "USING SCHOOLBOY MATHEMATICS, we can say Echo I travels around the earth in two hours, which is at the rate of 12,500 miles an hour ground speed. Therefore, during the two minutes the picture was exposed the streak left by fast traveling Echo I represents about 417 miles at ground level. Actual distance traveled would vary, of course, with the height of Echo I."

Davis Seizes Schools in New Orleans

By DENNIS NEEDLE

LONDON (AP) — The courtroom conduct of U2 pilot Francis Gary Powers on the first grueling day of his Moscow trial won him the sympathy and even admiration of many of West European newspapers.

They pictured the young American flier as a lackluster, usually in the cold war. Many West European observers also felt the early pattern of the espionage trial confirmed their opinion that the whole thing was a well-staged propaganda show, with U.S. policy rather than Powers as the target of the Soviet prosecutors.

Most newspapers, including many with their own correspondents attending the trial, were content.

Lawyer for Powers Asks Leniency

By STANLEY JOHNSON

MOSCOW (AP) — Francis Gary Powers' Russian defense attorney expressed hope today the Soviet military court trying the American U2 pilot will be lenient with him.

The attorney, Mikhail I. Grinlov, made the comment as the trial ended its second day with testimony of Red experts who attacked Powers' contention that he was only a pilot acting under orders and not a spy.

Grinlov told Powers' family he based his hope for leniency on the pilot's behavior during his trial, together with his expressed regret and repentance over the May 1 flight that landed him in Russian hands, 1,200 miles inside the Soviet Union.

Grinlov is a court-appointed attorney, and the informal view he expressed could reflect official Soviet thinking.

The Moscow radio was telling its listeners today that Powers shows signs of true repentance, and "this makes a clear distinction between him and those who sent him."

The U2 pilot completed his own testimony in 10 minutes on the stand today. He reiterated that he was sorry he made the May Day U2 flight. He told his Soviet judges he did not think at the time that the flight might torpedo the Paris summit conference or provoke a military conflict.

It is the Soviet view that the Powers flight torpedoed the summit, while the United States contends that Premier Nikita S. Khrushchev's reaction to the flight, including insistence that President Eisenhower apologize, was responsible for breaking up the May 16 meeting in Paris.

The second day's session ended at 5:40 p. m.

The trial resumes Friday with prospects that it will be completed before nightfall.

Fort Smith Judge Is Indicted

FORT SMITH, Ark. (AP) — The Sebastian County Grand Jury has indicted Municipal Judge James L. Langston of Fort Smith on a charge of contributing to the delinquency of a minor female.

The offense is a misdemeanor. Langston was notified to appear for trial during the October term of circuit court.

The jury returned the indictment last night but kept its secret until Langston was notified today.

Langston had no direct comment on the charge, but said he would turn over the duties of his office to a deputy until final disposition of the case. The jury did not suspend him.

The jury convened last week to investigate various charges made in the race for 10th District chairmanship in the July 26 Democratic primary. The incumbent, Franklin Wilder, defeated Langston.

Langston has sued Wilder and other parties for libel in connection with charges published in a weekly newspaper.

File 3 Suits on ABDS for Recovery

LITTLE ROCK (AP) — Three suits have been filed in federal district court in an attempt to recover \$4,243 for creditors of the bankrupt Arkansas Business Development Corp., and its subsidiary, Lenders Service Corp., Inc.

One suit seeks to recover \$1,098 from Frank A. Wills Co., a second action seeks \$1,245 from Hansen Co., Inc., and the third suit seeks to recover \$1,000 from O. L. Dailey Jr.

D. D. Panich, attorney for Murray, said the move signaled the beginning of several actions aimed at recovering assets for the benefit of creditors. The suits contended the bankrupt firms wrote checks for the amounts cited while they were insolvent, allowing the recipients to obtain a greater percentage of the debts owed them than other creditors.

If the money were returned to the estate of the two bankrupt companies, it would be divided up among all creditors on a share-alike basis.

Man Said Drowned Is Found Alive

MEMPHIS (AP) — A man thought to have drowned when his automobile plunged into the Mississippi River nearly three weeks ago has apparently turned up in Nevada.

The parents of Lawrence M. Anderson, 30, said he telephoned last night from Las Vegas and asked, "What has happened to me? How did I get here?"

His parents, Mr. and Mrs. D. H. Anderson, said their son had appeared to Las Vegas police when he could not remember his identity.

The manner in which Anderson's car plunged into the river resembled the suicide of another Memphis man May 8. At that time, Jack Hembree, Jr., 22, raced his car down the Beale St. about ramp and into the river.

Anderson's car roared down the waterfront ramp into the river July 20. Witnesses said a man was inside. The next day a heavy crane pulled both cars from water 30 feet deep. Workers recovered Hembree's body but Anderson's car was empty.

At the time, the elder Anderson said his son had been ill a month with fainting spells but that he knew no reason for him to attempt to take his own life.

Faubus Keeps Hands Off House Fight

LITTLE ROCK (AP) — Gov. Orval F. Faubus took a hands-off attitude today toward the battle between Prairie Rep. John Bethell and Little River Rep. Marion Crank for speakership of the House in the 1961 Legislature.

"Neither has asked me for support," Faubus said.

"It has been traditional in my administration to let the House members elect their own speaker and I hope it works out all right this time. I am not going to take an interest in it either way because both men are my friends."

Faubus added: "If it should become necessary for me to take a part, I will talk to them first."

Both Bethell and Crank visited the governor last week. Neither would say what was discussed.

The battle for the speakership developed after Bethell, an avowed candidate for the job, split with the so-called House Old Guard during the 1959 session. Crank, who didn't start seeking the position until late in the session, has the backing of most senior House members.

world is to be supported."

Dillon, following through on a first-round victory for the administration, went before the Senate Appropriations Committee with this final plea for a \$4,183,500,000 foreign aid money bill. The emergency fund would be a part of that sum.

The committee Tuesday approved a bill which would authorize the full amount Dillon is asking. A separate bill would be required to appropriate the money.

The group also reported favorably on President Eisenhower's urgent call for authority to start a 500-million-dollar program to help Latin America develop its economy. No appropriation for that will be asked this year.

On the House side, the Foreign Affairs Committee agreed to start work Monday on the request for more discretionary foreign aid funds and the Latin-American proposal.

Sorrowing Aunt Blames Self for Brother's Interference

Dear Helen: In a recent issue of your column I read a letter from a girl who was, as we say, a street angel and a house devil. My teen-agers were not that, but my widowed brother certainly was — causing our niece, an orphan, to make a miserable marriage.

Some 20 years ago my niece's parents died and she came to live with my mother, single brothers and myself. A few years later, my brother's wife died and his children came to live here. My brother was very abusive to my niece and convinced her to marry the wrong man. He signed the papers, acting as her guardian, although he is not. After five years and two children, she and her husband have come to the parting of the ways.

Did I err in not putting my niece to live in an orphanage with the good, well-balanced Sisters, or should I have locked my brother out of our home? — Sorrowful Aunt.

Dear Sorrowful Aunt: It sounds as if you should have locked your brother out, but that's all water over the dam now. Regrets are futile and the forest of night have been peopled with ghosts.

Look upon your niece's unhappy years as a test of character. They were not lost if she has emerged the stronger. And she has her children. It wouldn't be out of order to remind your brother that the mills of the gods grind slow but exceeding fine.

Dear Helen: My girl friend was

Father Is Proud of Pilot Powers

MOSCOW (AP) — "That's my boy right down the line," said Oliver W. Powers tonight.

He was speaking of the appearance of his son, Francis Gary Powers, in a Soviet court where he pleaded guilty to espionage.

"Every word was his. His mother thought that he had lost some weight but he looked normal otherwise," the father said.

The U-2 pilot's wife, Barbara, was too exhausted by the strain of the day to see reporters.

A Virginia attorney with her, Alexander W. Parker, said: "She was very pleased about the manner in which her husband gave his testimony but like her lawyers she is unable to evaluate it."

As for the question of brainwashing, Parker said: "She feels the same way I did about it. That if he has been brainwashed they have done a good job of it."

STRANGERS—Marilyn, may we present Tony Randall, right, Tony, Miss Monroe. Now that you've met her, Tony drop that faraway look caused by costarring in Marilyn's new film, "Let's Make Love," without getting to play one scene with her.

Cold Snap Is Rolling Over U.S.A.

BY THE ASSOCIATED PRESS
Snow fell across parts of two Rocky Mountain states as winter made an out-of-season test run on the coastlands of a midsummer cool spell which rolled through the midcontinent today.

Crisp 27-degree temperatures chilled the Colorado mountain communities of Fraser and Leadville before dawn, and Bryce Canyon, Utah, was given a 24-degree frost.

The August snow was measured in depths of nine inches over much of Yellowstone Park, Mont. Tuesday. It was even deeper on mountain peaks of the vast tourist wonderland. A few areas escaped with hard rain.

Snowfall and fog harassed highway travel in high Colorado mountain passes during the night and forced closing of Trail Ridge Road, a scenic route crossing the Continental Divide west of Estes Park.

Johnson Says Democrats Will Win

WASHINGTON (AP) — Sen. Lyndon B. Johnson told newsmen today he is rather optimistic about victory for the Democratic ticket — on which he is the vice-presidential nominee — despite early polls showing Republicans ahead.

Johnson said he may be unable to accompany Sen. John F. Kennedy, Democratic presidential nominee, to Hawaii early in September to step up the Democratic campaign.

Johnson said that legislative business may keep him away from the job. He still indicated a hope that the current session of Congress will wind up Labor Day weekend. Labor Day is Sept. 6.

Hollywood Palace, where Mary Queen of Scots, lived and died during the 16th century, still stands in Edinburgh.

was reported on both Loveland Pass and Berthoud Pass, about 50 miles west of Denver.

vinced there had been no attempt to brainwash Powers. Britain's Daily Telegraph said Powers was in the unprecedented position of a secret agent who had been acknowledged by his principals.

"Given this fact, and assuming he was right in assisting the court at all, the American pilot was magnificent," the Conservative newspaper said.

All over Western Europe reports of the trial were carried under banners in big type stretching over several columns.

"Powers confessed quietly and with dignity," said the headline of a Copenhagen newspaper.

Another Danish paper described the trial as "a big Soviet propaganda show with a small supernumerary in the leading role."

If Messaggero, Rome's biggest independent morning paper, termed the trial a "sad comedy."

Industrial production held steady in July. The Federal Reserve Board's index was two points below its record high of the first of the year, but one point better than a year ago. This could mean it has hit bottom for this cycle and is ready to move higher as industry gets going in the fall.

Employment has climbed to a new high, even if four million persons are still out of work.

Consumer spending has stayed high—strong buying in the non-durable fields offsetting a letup in durable purchases.

They note these deterrents: The stock market shows no signs of expecting a new boom. And the market has a big effect on public thinking.

Stroganoff Good Patio Fare

Pleasantly warm summer evenings are perfect for porch or patio dining, and balmy breezes whet appetites sometimes subdued during the heat of the day.

What about serving everybody's favorite, Beef Stroganoff? It is a hearty enough dish to please the hungriest of men but lends itself to informally serving because it can be served in one dish. Pickled beets and sour cream are suitable accompaniments.

To any meal served indoors or out, seasoning is important. A versatile one is Tabasco, a liquid red pepper seasoning. It is particularly good with dishes that combine meat and vegetables in one because flavors are apt to become indistinct and need spark such as Tabasco provides.

Beef Stroganoff

2 tablespoons flour
2 teaspoons salt
1 1/2 pounds sirloin or rib steak, or boneless chuck, cut into strips
4 tablespoons butter or margarine
1 medium onion, sliced
1 garlic clove, minced
1 can condensed tomato or cream of chicken soup
1/2 cup bouillon
1/2 teaspoon Tabasco
1 pound mushrooms, sliced
3 cups hot cooked rice
1 cup commercial sour cream

Combine flour and salt; sprinkle meat with flour mixture. Melt butter in skillet; add onion and garlic. Cook until onion is tender, but not brown. Remove from skillet; add meat and brown well. Stir in soup, bouillon, Tabasco and onion. Cover; simmer 30 minutes, or until meat is tender. (Simmer 1 hour for chuck). Add mushrooms; cook 10 minutes longer. To serve, spoon rice around edge of serving platter; turn beef mixture into center. Serve with sour cream. Yield: 6 servings.

Union Local at El Dorado Under Probe

WASHINGTON (AP) — Senate investigators called in two brothers, officials of an Arkansas labor union, for questioning. They had closed doors today about the union affairs.

The witnesses were named as Earl Griffin, a special organizer in Arkansas for the Plumbers and Pipe Fitters Union, and his brother, Jewell Ermon Griffin, business agent of the union's Local No. 706 in El Dorado, Ark.

The Senate Investigations Subcommittee summoned them after hearing testimony yesterday from a group of rank and file unionists sharply critical of financial and allegedly undemocratic practices in Local 706.

Chairman John L. McClellan (D-Ark.) declined to discuss the rank and file testimony, citing the committee's rules against unauthorized disclosures of testimony heard in closed session. He said public hearings may result after preliminary inquiry into the local's affairs, however.

Subcommittee sources said the group is inquiring into the steps by which Jewell Ermon Griffin was chosen to succeed his brother, Earl, as business agent. There has been some deep controversy in the local concerning this shift.

Seven past and present rank and file members of the union testified yesterday. They said in advance of the hearing they had opposed the conduct of some of the local's officials, and had encountered discriminatory treatment as a result. The subcommittee instructed them not to discuss their actual testimony with outsiders at this time.

The seven witnesses, all past or present members of Local 706, were sharply critical of the conduct of some Local officers. McMille, T. A. Hulsey and Lance Gray of El Dorado and Ralph Lucas and Truett Longing of Crossett, Ark.

Kelley, Giles and Lucas said they are still members of Local 706. Gray and Hulsey said they have transferred into other locals of the union and Gannille said he now is with the International Assn. of Machinists.

Ike Rejects Notion U. S. Is on Trial

By JOHN M. HIGHTOWER

WASHINGTON (AP)—President Eisenhower indignantly rejected today Russian contention that the United States is on trial, along with U2 pilot Francis G. Powers. He called it a distortion of the facts.

The President told a news conference that evidence by Powers so far does not indicate he has been brainwashed.

Eisenhower protested against Russian refusal to let any U.S. Embassy official or other American government representative see the flier whose reconnaissance plane went down in central Russia May 1.

Under international usage and custom, Eisenhower told a news conference, a foreigner accused of crime is accorded the right to see a representative of his own government, but the Russians denied Powers that right.

He said in discussing the case at the very outset of his conference that he did not wish to comment in detail on the trial or the charges against Powers, because that might not be helpful to the flier.

Friction Will Grow Between China, Soviet

WASHINGTON (AP)—Sen. Humphrey (D-Minn.) said today he sees growing friction between the Soviet Union and Red China, but no likelihood of any early split between them.

In a prepared Senate speech Humphrey said all this must be considered in shaping this country's foreign policy. He is a member of the Senate Foreign Relations Committee.

The Senator said bonds between the Soviet Union and Red China are much stronger than their differences born of long-standing mistrust, prestige rivalry, population pressures and troubles over interpreting the Communist party line.

It would be wishful thinking to conclude that the two Communist giants are going to split any day," Humphrey continued. "Nevertheless, it would also be foolish to ignore the fact that tensions do exist and that they seem to be increasing rather than diminishing."

Election Probe in Second Week

FORT SMITH, Ark. (AP)—A Sebastian County Grand Jury investigating charges made in a chancellor's race before the July 26 Democratic primary headed into its second week today.

The jury, which began work a week ago today, heard Fort Smith Municipal Judge James L. Langston, an unsuccessful candidate for 12th District chancellor, yesterday.

About 20 witnesses have appeared before the jury so far. There has been no indication when it will report.

Langston was defeated by Chancellor Franklin Wilder in the primary. The jury is investigating charges made in the campaign preceding the election.

Thief Gets His Hoard of Coins

LITTLE ROCK (AP)—For years A. R. Dumas saved buffalo nickels. When 959 pennies with a slight defect appeared, he began saving those, too.

He hoped the nickels and pennies would be valuable some day. Yesterday a burglar broke into Dumas house. The intruder took \$40 worth of nickels and pennies.

Fight With Kinsman Ends in Death

EL DORADO, Ark. (AP)—Albert Horace Black, 47, of Urbana, died yesterday of head injuries police said he suffered Thursday in a fight with his brother-in-law.

The brother-in-law, E. C. McBroom, about 50 of Louisiana, was charged with assault with a deadly weapon after the incident, in which Black allegedly was hit with a piece of pipe. Deputy Prosecutor Melvin Mayfield said McBroom is free on bond pending a grand jury appearance.

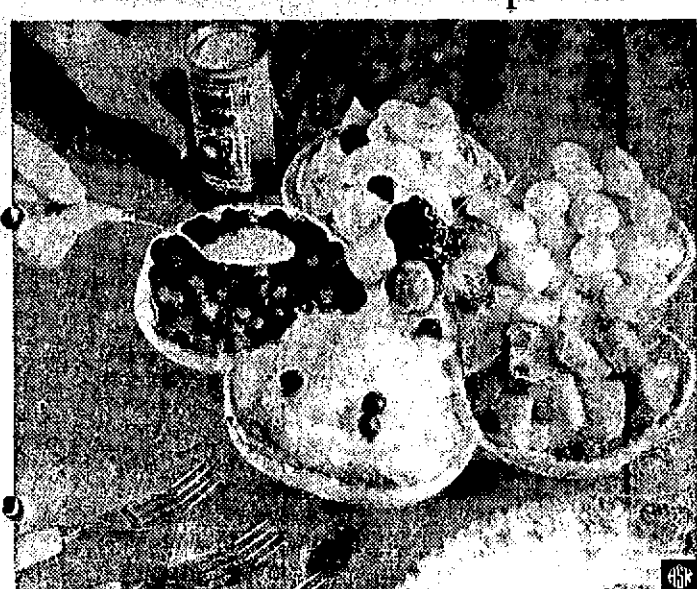

Police quoted McBroom, a semi-invalid, as saying the fight began when Black attempted to pull him from a car.

Appeals Taken by Sit-Downers

LITTLE ROCK (AP)—Two Negro college students have asked the Arkansas Supreme Court to set aside fines and jail sentences levied in connection with a sit-in demonstration protesting lunch counter segregation.

James Frank Lupper and Thomas B. Robinson filed the appeal yesterday. Each was fined \$418 and given 90 days in jail on charges of violating a state law making it illegal to refuse to leave a business place when asked and another law concerning peace

Concentrated Flavor Tops All!

When will people realize that desserts don't have "to go" as soon as a pound is gained, and that desserts don't have to be sweet and heavy. Seasonal fruits are so refreshing to both eye and palate it's a shame we don't enjoy them more often.

Desserts can even be festively fancy without being calorie-laden. Tasty undiluted frozen Florida grapefruit juice concentrate spooned over summer fruit is refreshing and looks picture-pretty. Any frozen concentrate left over can be reconstituted with three times as much water for breakfast juice! Frozen Florida grapefruit juice is an excellent source of vitamin C, which helps keep up our vitality in hot weather.

Easy-does-it Dessert

Arrange blueberries, banana slices, melon balls and canned grapefruit sections on serving dish. Spoon over all undiluted frozen Florida grapefruit juice concentrate.

Fruit Medley

Combine 1 package of frozen or 1 cup of fresh raspberries, 2 bananas sliced, and a partially thawed undiluted 6-ounce can of frozen Florida grapefruit juice concentrate. Let stand an hour before serving. Spoon into six sherbet glasses.

Brinkley to Meet L. R. in Little Play

LITTLE ROCK (AP)—Brinkley, conqueror of the defending champion, meets Little Rock and Gillett goes against Texarkana tonight in semifinals of the Baseball Assn. of Arkansas Little League state tournament at Geyer Springs.

Brinkley shoved across six runs in the last innings to humiliate the North Little Rock Elks, 9-0, state champions, 7-0 in the tourneys opening game last night.

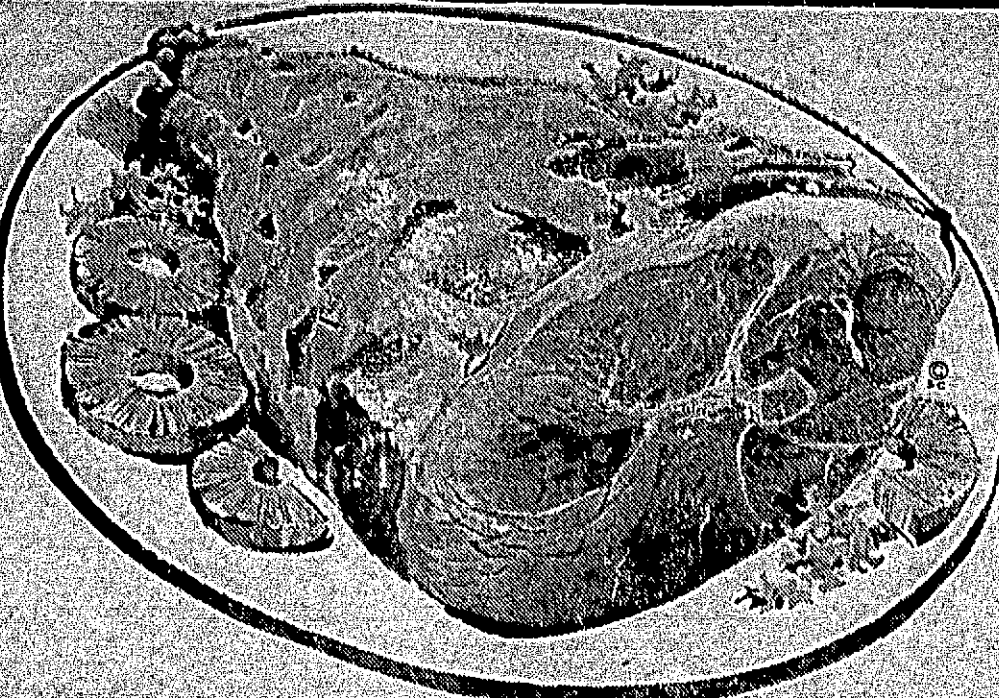

Little Rock shut out Greenbrier 5-0. Gillett scored the winning run on a passed ball to beat Cabot 5-1, and Texarkana downed Geyer Springs 3-1 in other first round games.

The first round was single elimination. Beginning tonight, it will take two defeats to put a team out of the tournament.

Diversifying of Industry Is Confusing

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP)—Picking your way through the maze of corporate names that sound alike can sometimes trip you if you're an expert and throw you if you're a novice.

As the number of companies in the United States grows each year, the sound-alikes multiply. And the postwar trend to diversification of products is the opposite of helpful.

Most persons have to stop and think to tie the right end product to the various glass companies with the proper nouns, Libbey, Illinois; Owens, Corning, Ford, in different combinations.

Even knowledgeable stock traders might stumble over the Ohio Oil Co. and Standard Oil Co. (Ohio). And many gasoline buyers get mixed up between all the other Standard Oils—Jersey, California; Indiana; Louisiana; Kentucky; Texas. Some standards of old have telescoped their names.

Example: Socony Mobil—the Socony was once Standard Oil Co. of New York.

The various Colas can trip the unwary—Coca, Pepsi and Royal Crown. How about U.S. Gypsum and National Gypsum, American Can and Continental Can, General Foods and General Mills? Some persons confuse B. F. Goodrich and Goodyear, especially as both rubber companies are in Akron, Ohio.

But it's another Ohio City, Toledo, where confusion could really reign in the post office and the telephone office, for three top glass companies are there. Among them, in varying combinations, they sport all five of those names—Corning, Ford, Illinois; Libbey, and Owens—with all three sharing Owens.

Each makes glass, but also separate and noncompeting end products. Out-of-towners can get pretty mixed up between Owens-Illinois, Libbey-Owens-Ford, and Owens-Corning.

The Owens shared by all three comes from Michael J. Owens, who worked for Edward Drummond Libbey, and devised the first automatic glass bottle making machine. The bottle company became Owens-Illinois in 1929. It still makes glass containers, but also

For Every Day There's an Illness

By HAL BOYLE

NEW YORK (AP)—There are at least 36 1/2 recognized medical ailments, one for each day of the year.

But in the modern U.S. business world there are a number of other diseases, some of which have never been named. They probably cause more lost time and wasted motions—and perhaps more deaths—than all the illnesses mentioned in a medical dictionary.

There are a few of these mysterious maladies you can probably find in your own office:

"One-day pneumonia"—Familiar to every personnel director as a synonym for a hangover. Usually strikes on Monday. Victim makes miraculous recovery during day and shows up Tuesday morning chirping like a bluebird.

"Afternoon sickness"—Patient has three martinis and a parfait for lunch. Shores at desk until quitting time.

"Puffy cash aphasia"—The new office boy suddenly trembles and becomes speechless when questioned about \$3.50 shortage in the stamp drawer.

"Daily doubtitis"—A gnawing compulsion by employee to go to nearest pay phone to call bookie each afternoon shortly before start of first race at nearest horse track.

"Foot-in-mouth disease"—The junior executive who compliments

the boss on his 64th birthday by saying, "Just one more to go, eh chief?"

"Secure syndrome"—The state of utter panic experienced by the office goof-off when he learns the firm has hired an efficiency expert.

"Morning stupor"—A cerebral haze which grips approximately half of entire staff until they get 10:30 a.m. coffee break.

"The 5:15 p.m. myopia"—This malady makes it impossible for the stenographer to discover any misspelled words in any letter she finishes just before quitting time.

"Post-vacation tritania"—Characterized by a vacant look and an inability to settle down into the old rut. Usually disappears after a week or two. If it doesn't, the employee disappears.

Blast Rocks Nuclear Lab

ALDERMASTON, England (AP)—A big explosion rocked Britain's nuclear weapons laboratory here today.

Officials said the blast was self-inflicted by nonatomic materials and a building was extensively damaged.

First reports said no one was hurt and no radioactive substances were released.

Integration Move in New Orleans Hit

NEW ORLEANS (AP)—A special, three-judge federal court will convene Aug. 23 to hear a motion to enjoin Gov. J. B. Davis and Atty. Gen. Jack Gretnall from preventing public school integration here next month.

Chief Judge Richard T. Hives of the U. S. 5th Circuit Court of Appeals will preside.

An order has been entered in federal court naming Davis and Gretnall defendants in a government suit to integrate Orleans Parish schools.

The order was on motion of the National Assn. for the Advancement of Colored People, Hearing will be on the NAACP's request for a temporary injunction to keep Davis and Gretnall from enforcing a new state act which permits the governor to take over schools ordered integrated.

Independent Electors for Mississippi

JACKSON, Miss. (AP)—Mississippians prepared today for a hard three-day fight among Democrats, Independent Democrats and Republicans for the state's eight electoral votes in the November presidential election.

The three-day scrap was assured yesterday when the state's reconvened Democratic Convention made Mississippi the first Southern state to back independent electors in hopes of winning concessions for its point of view from the two major parties.

The convention voted to put two states of electors on the Nov. 8 ballot—one pledged, the other pledged to the party's Kennedy-Johnson ticket.

The loyalist electors immediately filed an affidavit with Secretary of State Heber Lader, promising they would cast their electoral votes for Sens. John F. Kennedy and Lyndon B. Johnson.

The action was taken as a safeguard in case court action was filed contesting the convention's endorsement of the two sites.

College for Negroes to Defy Threats

UNION, Miss. (AP)—Bay Ridge Christian (Negro) College is scheduled to open next month despite objections and veiled warnings from white neighbors that they would not be responsible for what happens.

However, The Rev. Robert B. Judy of Miss. a Church of God pastor, said he felt that "at the present time the project ought to be halted because of the unrest among the people."

The Rev. Mr. Judy said the school would not be integrated. "It's to train Negro ministers and gospel workers," the white clergyman said. "It's not a secular school."

The college is to have 5 teachers and 20 students. The students would work on the college farm as part of their curriculum.

Some 200 white residents of the Union area asked a college official Saturday to disband the institution and move its "out-of-state colored people." The whites said the school was being built in a white rural area "five miles from the nearest Negro family."

Judy said the faculty would consist of college president J. Horace Germany and his wife, both white; Isom Crummett, a Laurel Negro; Euditha Surrell, a Meridian white woman, and himself.

Give Up Hope for Child in Indiana Case

BOONVILLE, Ind. (AP)—Police today gave up hope of finding Avril "Honey" Terry, 11, live after confirming her clothes were found in the bloody front room of a timber maker's home.

Sgt. Wendell Opel, state police detective, said Emmett O. Hasfield, 53, an ex-convict with a record of sex offenses back to 1927, denied any part in the disappearance of the physician's daughter. No charge had been filed.

But Opel said blood stains indicated the girl was killed in the front room of Hasfield's small home and then was taken out across the front porch.

A massive ground search was started in the 10 to 11 miles of rough terrain between Hasfield's home on the south edge of town and the Ohio River, where he keeps a small boat.

Opel said a house and parties found in Hasfield's home were identified by the girl's parents as Avril's.

Hasfield was reported seen in a variety store about the time the girl went downtown to buy clothes for a birthday cake for her sister, Candace, 8.

Potato Salad Goes Gourmet

TODAY, THE FASTIDIOUS HOSTESS can serve outstanding dishes with gracious ease, because of the many excellent packaged prepared foods available to her. Not the least of these is Minute Sliced Potatoes used in the Gourmet Potato Salad featured in this photograph. This is an excellent example of a satisfying salad that can be made without the fuss or bother of washing, peeling, eyeing and slicing potatoes. A few little extra touches make it a dish fit for any lover of good food.

GOURMET POTATO SALAD

2 cups Minute Sliced Potatoes
1 cup water
1 teaspoon salt
1/2 cup dry white wine or 1/2 cup vinegar
1/2 cup mayonnaise
1 teaspoon salt
1/2 cup cucumber, scored and sliced thinly
2 tablespoons chopped shallots or onions
1/2 cup chopped celery
1/2 teaspoon dry mustard
Dash of pepper
2 drops Tabasco
1 tablespoon chopped parsley

Cook packaged sliced potatoes with water and salt as directed on package. Drain. Meanwhile, combine remaining ingredients. Pour over hot potatoes. Blend thoroughly. Chill. Garnish with scored black olives. Makes 6 servings.

U. S. Probes of Space Get Red Applause

STOCKHOLM, Sweden (AP)—A leading Soviet astronomer says American radar contacts with Venus and Mars are paving the way for the first space flights to the two planets.

Prof. Alexander Mikhailov, 7, head of the Pulkovo Observatory near Leningrad, praised American research methods to prove the position of the two planets nearest to earth.

Mikhailov told a reporter Tuesday that the problem of finding the correct position of Venus is one of the main obstacles for sending an automatic space vehicle in an orbit around that planet.

English-speaking Mikhailov said such a space probe with a camera and television-equipped space vehicle was his life dream.

He said that only when the exact relations between the planets—the earth and Venus or Mars—had been established could it be possible to launch a space vehicle and steer it in a circle around those mystery-shrouded heavenly bodies.

Action by Congress Is Needed, Ike

By JACK BELL

WASHINGTON (AP)—President Eisenhower declared today there is no reason why there should be a lot of action out of Congress in its pre-election session.

Eisenhower told a news conference that Congress once had passed 6 bills in two weeks. Congress can do what needs to be done, the President said firmly.

In response to a question, he said he had not heard the expression that the Democratic-dominated national legislature is a "do little Congress."

But Eisenhower said he doesn't see any reason why there shouldn't be some action on the legislative program he first laid down last January and, he said, had repeatedly requested in several messages.

In a wide-ranging discussion of national and international affairs, the President rejected vigorously any suggestion that the United States has blundered in its dealings with Cuba.

He said the Russians cannot put the United States on trial along with U2 pilot Francis Gary Powers. If the Russians want to try him as the President who directed the flight, that's all right with him, Eisenhower added.

House Medic Aid Bill Is AMA Choice

WASHINGTON (AP)—The American Medical Assn. said today it supports the kind of federal-state medical care program for the aged which the House passed and a Senate committee has approved.

Dr. E. Vincent Askey of Los Angeles, AMA president, said such a bill "will help those who really need help. And it allows those who don't need help to maintain their independence."

The House and Senate Committee bills would permit medical aid for those on relief rolls and those others who, although they can support themselves, are unable to meet heavy medical costs.

In general, the plan would permit states to determine those eligible for medical care and promise up to \$12 monthly of federal funds for medical costs on top of present federal shares of up to \$6 monthly for persons on assistance rolls.

The plan rejects Democratic Party demands that medical aid be made a part of the Social Security system, financed by payroll taxes.

In an address prepared for the annual meeting of the American Pharmaceutical Assn. Dr. Askey strongly urged rejection of any kind of compulsory approach to the problem.

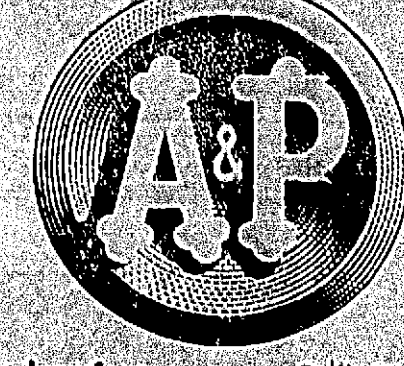

Flight to Moon Is Simulated

SAN ANTONIO, Tex. (AP)—Two veteran Air Force pilots are on the first phase of a simulated moon flight at Brooks Air Force Base here.

Technicians at the School of Aviation Medicine sealed Capt. William D. Hahlhetzel of Ingleside, Tex., and Lt. John W. Hargreaves of Castle AFB, Calif., in the cabin at 1 p.m. Monday.

The schedule calls for them to stay at least 17 days—the length of time scientists say it will take a space ship to go to the moon and back using fuels and equipment now available or expected to be in use soon.

TWO/MINUTE MYSTERY

THE CASE OF THE BLACK HAT
 BY DONALD J. SOBOL

Inspector Winters handed Dr. Haledjian a woman's crumpled black hat.

"In fashion lingo, it's been called chic," said the inspector. "To me it's a clue—the only one—to the murderer of Marcia Davenport."

"The society beauty who was discovered early this morning near Route 22, strangled to death?" asked Haledjian.

"Yes. She was found wearing a sequined black evening gown, satin pumps, a mink wrap, and black gloves—and she was bareheaded."

The inspector switched on his office intercom. "Bring in Ken Fowler," Fowler, a handsome young man, glowered defiantly. Answering the inspector's question, he snapped, "Sure, I left the party early last night—I hate those fancy shindigs. But I didn't take Marcia home in my car, I went alone."

"We have a witness," said the inspector. "Bill Betts, Marcia's escort. He insists she left early, with you. We found this hat in your car. I've already shown it to Betts, and he says he thinks it's the one she was wearing when she left. And her roommate says it was Marcia's hat, all right."

"Anybody could have stolen the hat and planted it in my car," growled Fowler.

"You were in love with Miss Davenport?"

"Yes—and so were half the men at the formal last night. Including your prize witness, Bill Betts."

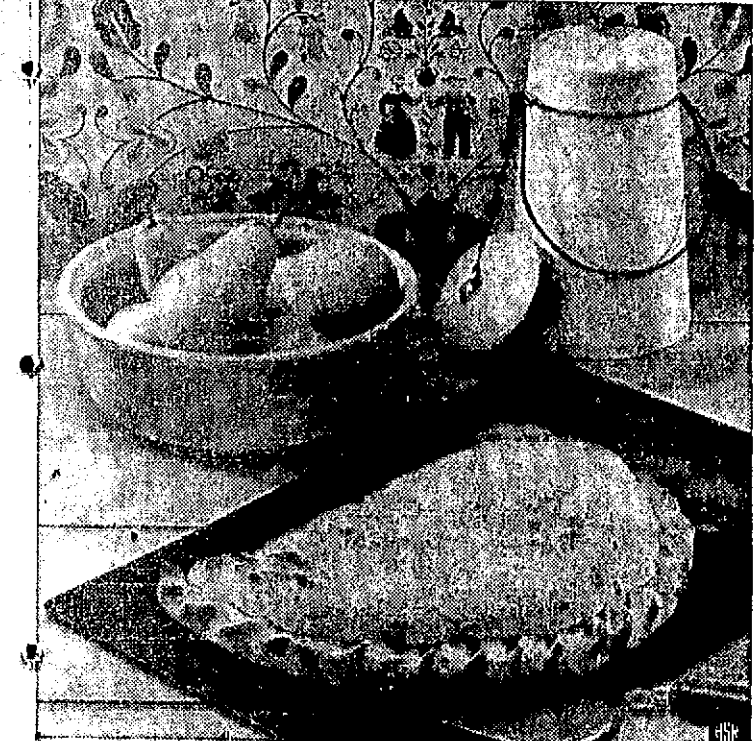

Jane Baldasare Quits Channel

FOLKESTONE, England (AP)—Blonde Jane Baldasare of New York had breathing trouble off the French coast today and gave up her attempt to swim the English Channel under water.

Swimming through the depths in a 20-foot-long cage, she got only four miles from her starting point at Cap Gris-Nez before calling the enterprise off.

Ohio was admitted as the 17th state in 1802.

Half-Moon Pie With Fresh Pears

You might describe this Amish Half-Moon Pie as a man-size turnover, wholesome as a Pennsylvania countryside. It is filled with fresh California Bartlett pears and cottage cheese.

Amish Half-Moon Pie
 There's a trick to rolling out this mammoth turnover, but the reward in price is well worth the trouble. Make up pastry for a double crust 9-inch pie. Chill thoroughly. Now core and slice 4 medium-sized fresh California Bartlett pears. Mix with 3/4 cup sugar, 2 tablespoons flour, the rind and juice of 1/2 lemon and a dash of salt. Lightly stir in 1/2 pint creamed cottage cheese. If you like a spicy pie, sprinkle with cinnamon and nutmeg.

To Roll Out Pastry
 Put a large sheet of waxed paper under a cookie sheet, extending about 12 inches beyond the sheet. Sprinkle with flour. Now roll out pastry in one big circle, half on the cookie sheet and half on the waxed paper. Top the cookie sheet half with the pear mixture; dot with butter or margarine and carefully fold over other half (use corners of waxed paper to pull pastry over). Crimp edges. Prick to allow steam to escape. Bake in hot oven (425°) 40 to 45 minutes or until crust is golden.

2 Varieties Duck Banned for Shooters

WASHINGTON (AP) —Migratory waterfowl hunting regulations announced today prohibit shooting of redhead and canvasback ducks during the 1960-61 season in this country and also tighten the duck rules for the Pacific Flyway.

Secretary of Interior Fred A. Seaton announced the framework of waterfowl hunting seasons and bag limits within which the states may select hunting dates and fix their own rules.

The outside dates for taking waterfowl and coots, except brant, in the Pacific Flyway, will be from Friday, Oct. 7 through Sunday, Jan. 8, 1961, both dates inclusive. These are the same as last year. For brant in the Pacific Flyway, the outside dates will be Sunday, Nov. 20 through Tuesday, Jan. 31, 1961.

In Puerto Rico and the Virgin Islands the outside dates will be from Tuesday, Nov. 1 through Wednesday, Feb. 15, both inclusive.

The length of the duck season and the size of bag and possession limits are both reduced for the Pacific Flyway while they remain generally the same as last year for the Atlantic, Mississippi and Central flyways.

An optional plan on seasons and bag limits is offered for each flyway. These provide for a possible maximum of 50 shooting days for duck and coots in the Atlantic and Mississippi flyways, a possible maximum of 60 days for those species in the Central Flyway, and a possible maximum of 90 days shooting of ducks, coots and gallinules in the Pacific Flyway. Last year the Pacific Flyway maximum was 94 days.

Basic shooting hours — sunrise to sunset last year, are lengthened one-half hour this year to include the period from one-half hour before sunrise until sunset except on specified season opening dates. On those days, a noon-to-sunset limit applies.

Mooty Out With Leg Operation

DALLAS, Tex. (AP) —A leg operation will keep Jim Mooty, former Arkansas All-American, from playing with the Dallas Cowboys for at least eight weeks.

"It's a terrible break," said coach Tom Landry. Mooty was to have started at right safety for the National Football League team Friday in a charity game against the Baltimore Colts in Dallas.

Landry said if the operation to repair a torn muscle in Mooty's left thigh, was successful, Mooty would be out for eight weeks or more. If it is not a success, he said, Mooty may never play again. No date has been set for surgery.

The doctor's decision to operate settled a controversy over what had been wrong with Mooty, of El Dorado, Ark. He had trouble with the leg during training camp, but was pronounced fit and went to Chicago for the All-Star game. There he was hurt again.

"The trouble was that I kept trying to work out with the All-Stars," Mooty said. "I guess I might have rushed it too much, but I wanted to play. Every time I'd run, the muscle would tear a little more."

Mooty was hopeful the operation would be successful and "I can be back in six weeks." He added, "I hope I can get back pretty soon."

Neutralists Set Up Laos Government

VIENTIANE, Laos (AP) — Prince Souvanna Phouma formed a new government today dedicated to ending the civil conflict with the Communist Pathet Laos and pursuing a neutral foreign policy. He retained the ministries of defense and foreign affairs for himself.

His program was patterned on demands of the army rebels who brought him back to power with a lightning coup a week ago.

Capt. Kong Le, the coup leader who was present at the National Assembly session when the Cabinet was announced, was reported pleased. Kong said he plans to continue army control of Vientiane until the situation has returned to normal.

The internal policy outlined by Phouma includes stamping out government corruption, improvement of public health and development of the country's natural resources.

Deposed Premier Phoumi Savang, who had a fight with the United States, refused to flee the capital. Mooty, apparently, is being held in a secret prison in Vientiane and his cabinet members, including Phoumi, are being held in a secret prison in Vientiane when the civil strife broke out last Tuesday.
